Obituary Notes.

Abraham D. Bennett, 97 years old, died yesterday of dropsy at his home, 233 Greene avenue, Brooklyn. He was born in Oyster Bay in 1812, was of an old Long Island family, and years before the civil war he was captain of a militia company of Queens county. Mr. Bennett gave up his farm in Oyster Bay and came to Brooklyn, where he went into the dairy business. He is survived by three sons, three daughters, twenty-three grandchildren and forty-two great-grandchildren.

Tissandier, Paulhan and Sommer have been chosen as substitutes for the French representatives in the international cup contest if any of those first chosen should be unable to compete.

The wind increased as the day wore on so that by 3 o'clock only seven starts had been made for the Champagne prize. Paulhan, on a Voisin, was the first who succeeded in making a serious flight. He did almost five rounds, or nearly thirty mfles, in an hour, with remarkable steadiness. The other six attempts only demonstrated how far from final is the

conquest of the air. De la Grange made almost one round, or six miles, in eight minutes. Bunau-Varilla almost capsized when he descended after going about three-quarters of the way around. La Blanc, on a Blériot machine, went about one-third of once

around. Latham, who received much sympathy because his Antoinette bore No. 13, a number which he chose himself, stuck his aeroplane's nose into the ground in front of the grand stand.

Fournier, against Voisin's advice, tried a flight that ended in a fall, which appeared to be the worst that had yet occurred. The entire right side of his machine was smashed.

was about to enter its shed after the trial when a sudden gust of wind blew it against telegraph poles that tore its cover. It then lurched against some trees and was almost torn to pieces. Eventually a gust carried it into the Seine.

The occupants of the car kept their places until the wreckage was blown into the river, when they jumped overboard and swam ashore.

The Clement-Bayard was a sister to the airship with which it is intended to sail to England shortly. Its destruction seems to have been partly due to the exhaustion of the petrol and partly to the violence of the wind, but the occupants give varying versions. It cer-tainly was not due to spontaneous com-

These included remaining in the air at a height of 1,500 meters for at least an hour. The ship had manoeuvred for more than an hour at a beight of 1,550 meters, which it is said beats all fecords.

FLIGHT RACE FOR LONDON. Bieriot and Latham Arrange a Match for 65.000 Under Aero Club Direction.

Special Cable Despatch to THE SUN. PARIS, Aug. 23.-According to Figaro, Blériot and Latham have arranged a match, to consist of five flights. Some details are yet to be settled, but the match will be under the auspices of the British Aero Club in the vicinity of London. The stake is \$5,000, of which \$4,000 will go to the winner.

ENTERS GREAT BALLOON RACE. Cortlandt Field Bishop to Fly With Mix in Zurich International.

Cortlandt Field Bishop, who is at Reims, France, to witness the aerial contests, notified the Aero Club of America, of which he is president, yesterday of his intention to go as aide to E. W. Mix, who will represent America in the international balloon race to be held at Zurich, Switzerland on October 3. In the international race of 1907, which started from St. Louis, Mr. Mix was aide to Alfred Le Blanc, who established a duration record of 44 hours 3 minutes and was only about 51/2 miles behind Oscar Erbsloh, who won the victory for Germany with his balloon Pommern, landing near Asbury Park, N. WILBUR WRIGHT TO FLY HERE.

Exhibition to Be Given During the Hudson-Fulton Celebration. James M. Beck, chairman of the aero

nautics committee of the Hudson-Fulton Celebration Commission, made the announcement yesterday that Wilbur Wright had signed a contract with the committee to give exhibition flights here in his aeroplane in connection with the celebration next month. Mr. Beck said:

"I to-day received the contract which Wilbur Wright signed last Saturday with the Hudson-Fulton commission to give a series of flights with his aeroplane during the celebration. This result follows prolonged negotiations. The Wright brothers have previously refused tempting offers from different parts of the world to give exhibition flights. The exhibitions which they have given in France, Italy and latterly in Washington were all in connection with contracts for the purchase of rights under their

The achievement of Fulton, which the celebration in part commemorates, could not be more fittingly supplemented than by an exhibition of this latest triumph of man over the forces of nature.

"While the commission had already engaged Mr. Curtiss for a series of flights and has under consideration offers of other distinguished aviators, yet the aeronautics committee feels especially privileged in having the written contract of Wilbur Wright to operate his own machine, not only because he is undoubtedly the foremost aviator in the world but because he is the Robert Fulton of the air, as he was the first to demonstrate successfully the possibility of mechanical flight through the air by a heavier than

George C. Boldt of the Waldorf-Astoria, has placed an order with the Wright brothers for a "full grown" aeroplane to be exhibited in his hotel during the Hudson-Fulton celebration. It is understood that the flying machine is to be fitted with an engine, and will be tested out after it is taken from the hotel. Mr. Boldt is a member of the Aero Club of the Thousand Islands, recently organized, the membership of which is confined to that of the yacht club of Thousand Islands.

Signs of Serious Plotting in Texas-Arms Run Across the Rio Grande-Phases of Mexico's Political Struggle Repression Causes Sympathy.

MONTEREY, Mexico, Aug. 23.—Cavalry has left Monterey, Monte Moreles and Saltillo for Galeana, where Gen. Bernardo Reyes is in retreat, to reenforce the troops already there. Reyes has offered no resistance to the Government and shows no inclination to make trouble. Thinking people are disgusted at the attitude of the Government showing such force toward him simply because his friends are booming him for Vice-President.

There is a general tendency, however among his followers in this city to acknowledge that he is defeated and hundreds of business men and others, for many years his friends, are said to have turned over to the other side and give as their excuse for having supported him, now that his power is broken, that they have until the arrival of Gen. Trevind as zone commander feared to speak a word which could be construed against him. Residents of this city as a rule express their confidence in the ability of Gen. tween Laredo and Brownsville, in which section there are few American troops on duty. A resident of this city, who has just returned from the Brownsville country, said to-day that it would not be at all surprising if the rumors should prove to be true, as there was much excitement in that section with many refugees from Mexico.

This is where the Garza Mexican revolution originated back in the '90s. There are stories current in this city telling of the introduction by night of large quantities of ammunition from the United States which it was thought was sneaked across the border with the connivance of customs agents in coalition with the revolutionists. There are reported to be thousands of Mexicans under the direction of various political juntas with headquarters in Texas hiding along the border just ready when the signal the border just ready when the signal is given to cross over and enter into the fight against their country.

While these reports are by many branded as malicious and untrue, excite-ment is high and every one in the city is arming himself and getting ready for the worst. The section in which the revolutionists are reported as gathering is one of the worst along the entire Rio Grande. Armed men live a free life there and it is looked upon as the last stand of the "bad man" in Texas. Texas cattle rustlers and Mexican bandits and political soldiers of fortune find a haven there. and it is among these that the revolutionists are said to be securing recruits

It is believed to-night that the troops that have been moving so alertly in this section and which many have supposed were sent to surround Reyes, have not all gone there, but some have been desspatched in the direction of the reported revolutionary forces. Nothing can be gained officially from the Mexican commanders. Gen. Trevino, commander of

NEW HUSBAND GOT HER MONEY

MRS. KEELER OF BROOKLYN GAVE HIM \$13,100.

Met Him at Ocean Grove July 3. Married Him at Glens Falls on the 13th and Lost Him at Grand Central Station the 61st - Jerome Notified

Charles Pope Caldwell, a lawyer at 42 Broadway, announced yesterday that in behalf of his client, Mrs. Henry Bryan Keeler of 24 Vernon avenue, Brooklyn, he has got the police and the District Attorney to help him find Mrs. Keeler's recently acquired husband. If the search is successful, the lawyer says, Mrs. Keeler will sue to annul her marriage and for conversion of her property. The wife also wants to prosecute her husband criminally.

Mr. Caldwell said that up to July 18 Mrs. Keeler was Wilhelmina Lynch, widow of Walter E. Lynch, who left her about \$15,000 worth of property when he died several years ago. She is 48 years old and has a young 'grandson. She took her grandson to Ocean Grove on July 3 to spend the Fourth. Site was sitting on the lawn of one of the hotels there when her attention was directed to an attractive man about 50 years old, Charles Alfred Byrne, journalist and who was talking with the boy.

The widow finally joined in the conersation, her lawyer said, and it wasn't long before the man told all about himself. He said that he was Harry Bryan Keeler, a mining promoter, with an amethyst mine in Mexico. He was an entertaining talker

Forty-first street. The two policemen reached Lexington avenue just as Bowen raced up and took refuge in the Vanderbilt Hotel. He was arrested without trouble and the revolver was found in his pocket when he was searched.

At the police station Bowen gave the name of W. J. Brown, but his right name was discovered on the credentials in his pocket. Shortly after the arrest Assemblyman Marty McCue went to the station and offered to give bail, but as there was no Magistrate available to accept it Bowen had to go to a cell.

EAGER TO SUE GAYNOR. Gen. Bingham Asks Court to Prevent

Further Delay of \$100,000 Case. Counsel for former Police Commissioner Bingham asked Supreme Court Justice Giegerich yesterday to deny an application by Supreme Court Justice Gaynor for dditional time to answer Gen. Bingham's suit for \$100,000 libel arising out of letters Justice Gaynor wrote concerning the Duffy case. He said that Gen. Bingham already had granted sixty days time and that it was understood that the

answer was to be in by to-day. Justice Gaynor's counsel said that the Justice wouldn't be back from Europe for a week or so yet and that until he came it would be impossible to file the answer. He said it was understood that the Justice's time was to be extended until he got back. "What is the hurry in this case?" asked

Justice Giegerich.

"Simply that Gen. Bingham wants the case tried at the earliest possible time, the October term of court," said the lawyer. "We understood that Justice the October term of court," said the lawyer. "We understood that Justice Gaynor was going to Europe and coming back on the return trip of the same steamer. I suggest that if your Honor grants further time you stipulate that the defendant must not serve an amended answer, which will cause more delay."

Justice Giegerich said it wasn't likely that the condition of the October calendar would permit the case to be tried then. Gen. Bingham's lawyer said that he wanted to have it tried surely in November. The Court reserved decision.

Whole Body Covered and Head Se Bad She Could Not Comb Hair-Sight Affected-Neighbor Begged Her to Use Cuticura - It Cooled the Itching Flesh and

BROUGHT REST, SLEEP AND A PERFECT CURE

"Words cannot express the awful skin disease I suffered with. My whole body was covered with it. My head broke out so that I could not comb my hair. For a month or more I suffered with a terrible sore throat. When I should lie down at night my aves would sick to

terrible sore throat. When I should lie down at night my eyes would stick together and I would have to bathe them before opening them each morning. I scarcely could see for my eyes had failed me from the effect of the skin disease. I tried three doctors, but they gave me morelief and then I tried all kinds of things that I thought would do me good but could find nothing. I was a perfect prisoner with the awful humor.

"One of my neighbors begged me to try the Cuticura Remedies, and I made up my mind to try them but not thinking that I would ever be cured. I would take a hot bath with Cuticura Soap and then apply the Cuticura Ointment. I found relief in a few days and is a month you could scarcely see a spot my face. I felt like a new person. When I first began to use the Cuticura Remedies they cooled the itching flesh and brought me real good sleep and rest at night. I had suffered fully two years with the skin disease but now I am a well woman and in good health. I beg every skin sufferer to use the Cuticura Remedies. I cannot praise Cuticura enough because I thought that I would never get well again. Mrs. Cordelia C. Pitts, Newborn, Ga., Nov. 24 and Dec. 21, '05.
